Dear Parent/Carer

Re: Academic Year 2025 – 2026 Height and weight checks for children in Year 6

Every year in England, school children in reception and year 6 have their height and weight checked at school as part of the National Child Measurement Programme (NCMP). This programme helps both national and local authorities understand how children are growing and plan better health and leisure services for families. Essex Child and Family Wellbeing Service is contracted by Essex County Council, on behalf of Office of Health and Disparities (OHID) to undertake these checks in your child's school.

What to expect from the NCMP

Our friendly and experienced NCMP Practitioners will visit your child's school to complete these measurements. Your child will be measured fully clothed (except for their coats and shoes) in a private, comfortable space. We take great care to ensure the process is conducted sensitively and respectfully. We understand that each child is unique, and our goal is to make them feel safe and at ease during their appointment.

All our colleagues are fully trained in safeguarding and are Disclosure and Barring Scheme (DBS) cleared. The programme will be delivered following national guidance for schools and healthcare, ensuring the highest standards of care and professionalism.

Your child's well-being is our priority

We understand that health screenings can sometimes be worrying for both children and parents. That is why we are committed to supporting your child's emotional well-being throughout the process. Measurements are conducted in a sensitive way, in private and away from other children. Individual results are not shared with your child or their school this ensures that your child's dignity is maintained.

If your child's measurements are within the expected parameters, you will not hear from us. However, if the measurements fall outside the expected parameters, we will reach out to discuss the measurements and explore supportive services available in your local area. We

will always approach these conversations with care and respect for your families' preferences. It is your choice if you share the information with your child. Once screening is complete, you are very welcome to request a copy of your child's height and weight measurements for your personal records.

What information is collected and why

- your child's height, weight, date of measurement, sex and date of birth are used to calculate your child's weight category (also known as body mass index, or BMI).
- Your child's ethnicity and address are collected to monitor difference in child growth and weight between ethnic groups, where children live and their backgrounds.
- your child's name, date of birth and NHS Number are collected to link their measurements in Reception and Year 6 to other information from health and education records held by NHS England, the Department of Health and Social Care and the Department of Education, where it is legal to do so.
- your telephone number is required as we may contact you by telephone to discuss your child's results and offer you further support following your child's height and weight measurement.

Information about how personal information and data is collected and stored

You can read more about how the Department of Health and Social Care collects, stores and uses your child's information and data in the [National Child Measurement Programme privacy notice](#)

You can read more about how NHS England collects, stores and uses your child's information and data at [National Child Measurement Programme \(NCMP\): GDPR information](#)

Withdrawing your child from the National Child Measurement Programme

If you are happy for your child to be measured in **Year 6**, you do not need to do anything*.

If you do not want your child to take part in **Year 6**, or your child has a medical condition that affects their height or weight, please contact us within the next seven days on the above number.

*Children will not be made to take part on the day if they do not want to.

Looking after your child's overall health

We encourage you to continue taking your child for regular check-ups with local opticians and dentists, in addition to the NCMP. These appointments are important to help ensure your child's overall health and development.

Thank you for your support in helping us promote the health and wellbeing of children in Essex. If you have any questions or concerns, please do not hesitate to reach out. We are here to support you.

Yours Faithfully,

Zoe Oddy
